TO HEAR REV. ELLIS

MISSION CROWD LARGE

Last night was the second of the several meetings being held in the Caroline Eddie Mission on the East Side, and it is stated that the crowds were doubly large as compared to the initial service Friday night. Rev. W. E. Ellis preached a strong sermon and at its conclusion two persons came forward asking an interview in the prayers of the minister and the Christian people.

Announcement is made that Rev. Mr. Ellis will preach this forenoon at 11 o'clock again in the afternoon at 1:30 o'clock, and the memorial services, together with an anniversary celebration will be had at the evening hour.

At the meetings time announcements will be made relative to the services during the days and nights of the week. Those in charge of the meetings made the statement that the outlook is encouraging for a repeat of unusual worth and they invite the general public to be present.

Originally it was designed that Rev. J. M. Ellis should be with his brother in these meetings, but he is engaged at another point, and Rev. Mr. W. H. Phillips of Plainview will assist here.

Land leased for oil at Bereford, located in the New Ulm, Texas, June 10, oil leases for more than \$100,000 worth of land around Bereford, have recently been signed up by a great number of operators. The leases are made to Mr. Horner, an associate who contemplates the building of one or more wells in the near future. Mr. Horner is the owner of a large number of oil concessions in the Panhandle, one of which is located here. A number of geologists and oil experts have looked this field over and estimate it to be one of the greatest in the country. Then came the oil men at about 3:30 P.M. last and the amount of about \$100,000 worth of oil concessions were taken up. Oil of the largest pools of all in the United States. They claim to exceed less than one-half mile in the same manner. Work in the first week was the most rapid geological work in the state of Kansas. Indeed, such an intense work for the fact that it was recognized by an oilman from the state who happened to be in town for insurance men would never have been possible. It seems almost a miracle in nature to make arrangements within the space of a single day, simple but one of the experts who have looked the situation over seem to agree.

The Strong Withstand the Heat of Summer Better Than the Weak

Old people who are feeble, and younger people who are weak, will be strengthened and enabled to get through the depressing heat of summer by taking regularly Grove's Tonic and Citron. It purifies and enriches the blood, and builds up the whole system.

Amusements.
